

INTELLIGENT MAILING - SMART, POWERFUL
AND EFFORTLESS

IM420

A Professional Mailing Solution for
the Dynamic Office Environment

HASLER
America's better choice.®

HASLER'S IM420

DELIVERING RESULTS FOR YOUR OFFICE

Dynamic business environments count on powerful performers who can get the job done with accuracy and speed. The IM420 offers fast, friendly operation that simplifies mailing and mail management. It's intelligent features and efficient processing start with the powerful semi-automatic feeder, best-in-class weighing and rating, and desktop data access for easy mail management. And with its sleek design and quiet operation, you can be sure that the IM420 will easily integrate into your office.

FAST, FRIENDLY OPERATION

Operation is simple and friendly for everyone in your office. The IM420 offers a host of smart functions and effortless menu prompts that improve productivity and eliminate errors. With simple navigation and quick shortcuts you can process mail in a few simple steps.

SEALING AND SECURING YOUR MAIL

Secure sealing ensures confidentiality. The integrated moistener allows for a tip-to-tip seal, ensuring a high quality appearance for your mail piece and all-important

mail security. Its easy access and no-spill water reservoir is designed for quick removal, easy fill up and simple cleaning.

CONTROL MAILING COSTS AND MAINTAIN ACCURATE ACCOUNTING

Achieve real savings in your mailing operations by controlling postal expenditures and effectively monitoring the bottom line. Track usage and postal costs by department and establish and monitor individual budgets with pre-set limits and automatic alerts. Access information from your desktop and generate reports to analyze departmental, mail class and time-period data, or customize your own reports.

SIMPLE AND CONVENIENT PROCESSING

Process your mail quickly and easily. Weighing and rating your mail is fast and accurate when using Differential Weighing technology. Simply place all your mixed weight mail on the

weighing platform, remove an envelope, and the correct rate is calculated automatically. And with "Smart Start", when you're ready, so is your IM420. Each time an envelope is removed, the power feeder activates and is ready to process your mail.

ACCURATE, EFFICIENT RATE SELECTION

Don't be confused by postal rates. Let the IM420 Rate Wizard give you a hand so you don't have to be a

postal expert. The IM420 Rate Wizard walks you step-by-step through the process of choosing the right rates and combination of USPS® special services. It also offers rate shortcuts for quick selection of commonly used rates, improving and simplifying the entire mailing process.

DON'T RUN OUT OF INK

Intelligent Mailing also means efficient ink management. The IM420 uses a long-life cartridge and minimizes ink usage by printing a smaller, USPS compliant IBI Lite indicia. "Low ink" email alerts ensure that you don't run out of ink, keeping your mailing process up and running. And the IM420's quick access cartridge design means changing ink has never been easier.

MONITOR, TRACK AND CONTROL POSTAGE COSTS

Your business needs to efficiently manage and control postal expenditures. Intelligent Mailing from the IM420 gives you online access to mail-related information. Monitor and track postage, mail class and department usage to effectively control expenses and develop more accurate budgets.

HASLER ADDS VALUE TO YOUR MAIL PROCESS

The IM420 allows for convenient online access to your mailing information right from your desktop, providing simpler and more effective management of your mail communications. This becomes a valuable tool for increasing efficiency, productivity and cost savings through better control of various mailing functions – transforming complicated tasks into simple ones.

MORE FEATURES, MORE FUNCTIONALITY, MORE SOLUTIONS

Performance

- Ergonomically-designed with quiet operation
- Power feed for fast batch processing
- External IM weighing platforms
- Differential weighing for fast processing
- Envelope moistener with easy-access reservoir

Efficiency

- Rate Wizard walks you through rate selection
