

ENHANCE PRODUCTIVITY AND REDUCE
COSTS PROCESSING INCOMING MAIL

OP101

THE EASY TO USE OFFICE SOLUTION FOR PROCESSING INCOMING MAIL QUICKLY AND EFFICIENTLY

The mail pieces that flow into your office come in a variety of shapes, sizes and styles. Opening all the mail by hand is time consuming and costly. The time spent slitting, tearing and cutting the incoming mail can be better spent on more valuable tasks.

Opening your incoming mail, whether small or large envelopes, has just become quicker, easier and cleaner thanks to the OP101 Letter Opener. This high-speed desktop machine allows you to open your office mail 30 times faster than if you do it by hand. Its 300 letters per minute (18,000 envelopes per hour) operating speed means no more tedious manual slitting or cutting of envelopes. You can now get your mail out of the envelope and into the business stream faster than ever before.

The OP101 can handle mixed mail without taking extra time to sort by size. The unit can open a wide range of envelope sizes and thicknesses, including 9" x 12" flats. And the OP101's single-side opening technique ensures the contents of the envelope are left undamaged, and there are no messy paper scraps to clean up. That means no more accidentally slicing your valuable incoming mail or spending an inordinate amount of time cleaning up after your done processing the mail.

HASLER
America's better choice.®

A SUITE OF VALUE-ADDED PRODUCTS AND SERVICES THAT COMPLETE YOUR TOTAL MAILING SOLUTION

Today's fast-paced office environment requires your mailing operations to be as intelligent as the rest of your business. More than ever, you need a total solution that provides the capabilities to meet all your demands, while giving you control and transparency of every mail-related function.

Hasler's OP101 will dramatically increase office efficiency by allowing users to operate at peak performance. And to truly maximize productivity and efficiency, consider integrating a Hasler folder/inserter, a powerful address printer, high-speed tabber, or a digital mailing system into your mailing operations. Each of these products will add processing speed, enhanced performance and a professional appearance to your mail.

Intelligent mailing ensures that your entire mail process operates faster, simpler and more reliably. Hasler has the total mailing solution to meet all your important processing needs, today and as you change and grow in the future.
